

First Fix Checklist

New Build + Renovation

Please use this as a guide for what needs to be in place before we attend site.

If having ASHP & Cylinder

- ASHP location confirmed and marked on plans
- Cylinder location confirmed & marked on plans

If having UFH

- UFH manifold allocation confirmed & marked on plans

If having radiators

- Radiator sizes confirmed – radiator schedule signed off by customer & Jack

If we are first fixing for plumbing

- Bathroom layouts confirmed – designs available or **exact** locations of sanitary ware marked on the walls/floor
- Sanitary ware, showers, shower trays, wastes and any items to be fixed into the wall e.g. taps/shower valves **must be on site** before we attend on the first day.
